SUMMARY

Developer with a Bachelor's degree in Software Engineering from the International Hellenic University, I specialize in creating dynamic, user-friendly web solutions. I have a solid foundation in front-end and back-end development, with a passion for leveraging the latest technologies to deliver high-quality digital experiences. My goal is to continually enhance my skills and contribute to innovative projects that make a difference.

PROFESSIONAL EXPERIENCE

Paragon Marketing & Management   **Mytilene | Remote**
Web Developer - Full-time   Mar 2024 - Present
Selected projects
- **Renovation Management Platform (B2B2C) - In progress**: Building a platform that automates project setup, cost estimation, and supplier RFQs. (PHP, MySQL, API integrations).
- **Hotel Review System**: Designed and developed a custom WordPress plugin for hotels, automating post-checkout email scheduling/sending, integrating Mailchimp, and enforcing token-validated review links for secure form submissions (PHP, MySQL, API integrations).

Additional responsibilities
- WordPress website creation, updates, and ongoing maintenance.
- Server management via Plesk (hosting operations, deployments, maintenance).
- Delivered workflow automations and custom web solutions tailored to internal business requirements.
